

Application No.: 10/627,867  
Amendment dated June 18, 2007  
Reply to Office Action of March 13, 2007

Docket No.: 0365-0568P

**AMENDMENTS TO THE ABSTRACT**

Please replace the Abstract of the Disclosure with rewritten Abstract of the Disclosure attached hereto.

**ABSTRACT OF THE DISCLOSURE**

A stereotactic device including a frame configured to be mounted onto a nasion of a subject being examined and extending frontally below the eyes of the subject to end positions that are in front of the face of the subject and outside a field of vision of the subject, and at least three fiducial markers mounted on the frame and configured to define a position of the frame with respect to the subject.
